

PURTI

m.purtimittal@gmail.com | [linkedin.com/in/purtimittal](https://www.linkedin.com/in/purtimittal) | github.com/PurtiMittal | [Portfolio Website](#)

Detail-oriented professional with 2.5+ years of experience working with large datasets and executive reporting. Brings a strong blend of finance domain knowledge and hands-on practice building end-to-end analytical projects, from raw data to insight-driven outputs. Skilled in SQL, Power BI, DAX and Excel, with a strong interest in applying data-driven analytical thinking to support business decision-making.

WORK EXPERIENCE

Finance Executive, HCL Technologies (August 2023 – March 2026)

- Built consolidated report for CFO review using **Power BI** combining billing, collection and revenue data; translated **complex, raw datasets** into clear strategic takeaways for leadership decisions on a **\$4bn+ business portfolio**.
- Analyzed **\$7Mn+** pending customer payments and developed structured reports to track recovery progress and collection forecast trends, providing leadership with clear visibility into the payment recovery pipeline.
- Owned end-to-end UAT for automated revenue report - designed test cases, validated outputs against expected results before go-live, resulted in reduced reporting time **from 1.5 hours to 2 minutes (~98% efficiency gain)**.
- Validated **large financial datasets** using **Excel** to identify calculation gaps in automated revenue outputs - implemented corrective measures to reduce discrepancies, **data accuracy** validated at **99%** during audit.
- Developed billing status reports to track invoicing progress, supporting leadership in planning invoicing deadlines effectively.
- Performed reconciliation of datasets from CRM and SAP system **using Excel**, resulted in an improved **data accuracy from ~85% to ~95%**.

PROJECTS

Customer Segmentation & Interest Analysis (SQL) | [GitHub](#)

- Analyzed online customer interactions and ad click behavior data for Fresh Segments - a company tracking audience engagement - to uncover customer interest trends and identify high-value vs volatile segments across **1,200+ categories**, highlighting sharp decline in overall segment engagement.
- Built an **end-to-end SQL analysis** covering **data cleaning** including null handling, **data validation** including referential integrity check, **data querying** using advanced SQL functions including CTEs, JOINS, GROUP BY aggregations and window functions.

Cabs Service Performance & Passenger Behaviour Analysis (Power BI) | [GitHub](#)

- Analyzed **425K+** trip records for GoodCabs – a cab service provider, to assess target achievement, operational efficiency, repeat passenger trends and city-level performance gaps, highlighting high revenue concentration in select cities and declining passenger experience.
- Built an interactive **Power BI dashboard** from 5 different perspectives (Executive, Operations, Finance, Marketing & Customer Experience) using a star schema, developed **DAX measures** ranging from basic to complex calculations, **tooltip**, **bookmarks** and **field parameters**.

E-Commerce Performance Analysis (Advanced MS Excel) | [GitHub](#)

- Analyzed **15K** orders for an e-commerce company to uncover revenue trends, YoY performance, category and regional performance gaps, highlighting consistent near-target achievement (~90-95%) across all years.
- Built an end-to-end Excel solution covering **data cleaning**, **data modeling** and **dashboard development**, applying text, date and logical functions, structured a star schema in **Power Pivot** and developed **DAX measures** to enable dynamic, slicer-driven analysis.

CERTIFICATIONS

- [Certificate of Accomplishment - SQL \(Advanced\)](#) (HackerRank)
- [Power BI Data Analytics for All Levels 3.0](#) (Code Basics)
- [Excel for Data Analytics](#) (Analyst Builder)
- [Advanced Microsoft Power BI](#) (Coursera)
- [Excel Skills for Business - Virtual Experience Program by Goldman Sachs](#) (Forage)
- [SQL for Data Analysis](#) (Simplilearn)

AWARDS AND RECOGNITIONS

- Awarded with **‘2Good Award’** for distinguished performance for 2 consecutive years at HCLTech. (2025)
- Honored with **‘Certificate of Recognition – LIVE WIRE’** for proactive approach to excellence at HCLTech. (2025)
- Received **‘Letter of Recommendation’** for exemplary leadership as Vice President at Vishalakshi Foundation. (2024)
- Recognized with **‘Certificate of Appreciation’** and **‘Certificate of Kindness’** and recognized as **‘Volunteer of the Month’** twice for tremendous work and dedication towards Vishalakshi Foundation. (2023)

EDUCATION

Ramjas College, University of Delhi (November 2020 – July 2023)
Bachelors of Commerce (Hons.) (Cumulative GPA: 8.38)

Vaish Model Senior Secondary School, Bhiwani (April 2019 – March 2020)
Higher Secondary School (Score: 96.6%)
Secondary Education (Score: 97.5%) (April 2017 – March 2018)

SKILLS

SQL, Power BI, Excel, DAX, Data Modelling, Power Pivot, Data Cleaning, Data Analysis, MIS Reporting
